Our Guarantee

WE guarantee to furnish sufficient of the various kinds of material to build each Halliday Home in accordance with the Design, the Plans and the Specifications given in this Catalogue,---it being understood that, while we make the usual allowance for waste in cutting, we assume no responsibility for material spoiled through circumstances beyond our control.

We guarantee all the materials supplied for Halliday Homes, to be of the best and most suitable grade and quality as specified in our Bill of Material. We further guarantee the safe arrival of goods ordered. Should any shortage or damage occur, we agree to make them good on receipt of your freight bill with the agent's notation of shortage or damage thereon.

Our References

Any Bank in Hamilton, any Express Company, or any Business Institution in our City.

Our best reference is to our customers. Throughout the Dominion there are many thousands of satisfied customers who will be glad to speak of our record of more than thirty years fair dealing. There are some in your district:---ask them about the Halliday Company.

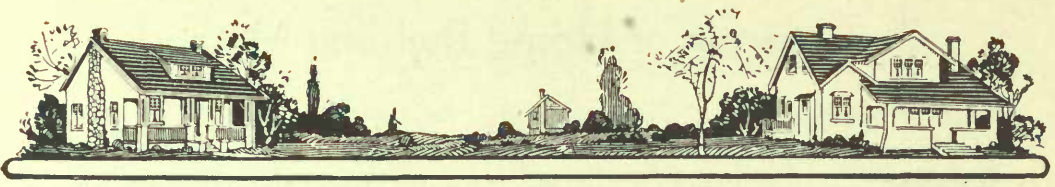

The goodwill of our customers is our greatest asset and the one that we feel most proud to own.

OUR AIM---"SATISFACTION"

"SATISFACTION" AS INTERPRETED BY US, IS NOT MERELY THE MAKING OF A SALE, BUT THE KNOWLEDGE OF HAVING HELPED ONE TO ACQUIRE THE HOME FOR WHICH HE LONGED, AND THE MUTUAL GOOD-WILL AND FRIENDSHIP RESULTING FROM THE TRANSACTION.

THE HALLIDAY COMPANY, Limited

To the Home Builder

THE aim of this Book is to simplify the problems of one who is contemplating the purchase of his first Home---the Home that perhaps for years has been the goal toward which he has been working, saving and planning.

To such a person the question of building a Home is of the most personal and vital character. It is one of the rare opportunities of a lifetime, involving oftentimes, the investment of the greater part of one's savings, and it is a question that should be approached in the most careful and thorough manner.

The inexperienced Home Builder, however is confronted with many difficulties in regard to the selection of the Home, the preparation of the Plans and the purchasing of Materials which often result in a Home being built, that falls far short of the "Ideal Home."

In order to assist you to overcome these difficulties and to place within reach, the Home of your choice, we have prepared Plans representing almost every type of modern Home, which you will find illustrated in the pages of the Catalogue.

We undertake to supply at one inclusive price, Plans and Specifications, and all Materials necessary for the construction of these Homes (masonry and plaster work excepted) so that they can be built exactly as shown in the picture.

Thus we enable you to obtain the Home of your choice in a manner which will give you the greatest satisfaction, with least possible trouble, and at the lowest possible price.

The following pages will explain in detail the Halliday Service and the means by which we are able to supply "Better Homes at Lower Costs."

THE HALLIDAY COMPANY, Limited.

A Contrast of Home Building Methods

Former Methods of Home Building

The man who has gone through the experience of building a Home will realize full well the need for the adoption of better methods in Home building than those formerly employed and which, to the person inexperienced in Constructional Problems, or in the purchasing of Building Materials, have often proved to be an adventure fraught with unforeseen and unexpected difficulties.

It will be admitted very few people are able to properly plan and design a Home, although a person may have a general idea of what is required. Homes however, cannot be built from general ideas, and formerly the prospective builder was obliged to call upon some outside help, usually an Architect or Builder, for ideas in Home design. The fees charged by an Architect---\$100.00 or more---rendered this course difficult for the person with limited means who was therefore obliged to turn his problem over to the Builder or Contractor.

The average Builder not having a large selection of plans at his disposal would probably suggest a type of Home that from his standpoint was easy and economical to build, although it did not embody the ideas in the mind of the Home builder. The result was usually a compromise, and a Home was built which bore but little resemblance to the Ideal Home.

Many of the unattractive and even ugly Homes which often mar the beauty of the Countryside, are a standing example of the lack of artistic method in the Home Construction of former days.

Further, in regard to materials, the Home Builder being unable to obtain all his materials from one source, was obliged to deal with various people, pay retail prices, contend with probable delays in delivery, and oftentimes accept inferior materials.

Home Purchasing a Pleasure by the Halliday Method

Contrast this method with that of the Halliday Company, which simplifies your building problems and turns the strain of Home purchasing into a pleasure. It enables you to deal with the question in the safest and surest manner---which is to see the end from the beginning; to know exactly what you want before you start, and to have the whole detail of construction thoroughly systematized and definitely agreed upon before a sod is turned.

The Halliday Company's Service

The Halliday Company's building service as explained in this Catalogue entirely eliminates the difficulty usually attendant upon the selection of a desirable type of Home and the building of it to correct detail.

The Homes illustrated in this Catalogue represent the choicest and most popular of Architectural designs obtainable. Everything for comfort and convenience in the Home has been carefully studied, and the prospective builder is assured of a Home that is attractive, of sound construction and desirable from every point of view. Any Home can be built from Halliday plans just as it appears in the picture, therefore, when you have decided upon the particular design which suits your requirements, you will see in it an exact representation of your future Home.

All Materials to Build Your Home

WE UNDERTAKE TO SUPPLY AT ONE INCLUSIVE PRICE, ALL MATERIALS TO BUILD THE HOME AS SHOWN IN THE CATALOGUE, WITH THE EXCEPTION OF MASONRY AND PLASTERING MATERIALS. We do not include these for the simple reason that they can be obtained without difficulty in almost any locality. If however, it is impossible for our Customer to procure these materials locally we are always ready to supply them and to include them in the shipment with the remainder of the material. Our aim at all times is to serve our Customer to his best advantage.

Save \$400-\$500 Alone on Materials

Purchasing the Home in this manner offers advantages in the saving of time and money which are of the utmost importance to the Home buyer. Experience has proved that by supplying the Complete Home, we can save the Customer from \$400-\$500 on Materials alone, in addition to the saving of expense on Plans and Specifications.

How much better is this than the old procedure of buying from various sources, dealing with People having different standards of business---and involving greater expense by doing so.

On the following pages we give a detailed list which will enable the reader to see at a glance the material we furnish for Halliday Homes.

Material furnished for Halliday Homes

A Complete set of Plans, Specifications and an itemized Bill of Material covering everything supplied for the construction of the Home.

ROUGH LUMBER

For Beams, Joists, Plates, Studs, Rafters, Sheathing, Framing Materials for Veranda, Lath and Shingles.

FINISHED LUMBER

For Cornice, Siding, Veranda Finish, Outside and Basement Steps.

INTERIOR FINISH

MAIN STAIRS. All necessary Material, with Stringers plowed and Treads and Risers cut to length, ready to put together.

WINDOWS. Frames, shipped knocked down, ready to nail together, Sash glazed with best Sheet Glass, Trim cut to length, and Heads built up ready to nail in place.

DOORS. Frames, shipped knocked down, ready to nail together. Trim cut to length and Heads built up ready to nail in place.

HARDWARE AND STAIN

All Nails, Lock Sets and Hinges for Front and Inside Doors, all necessary Window Fasteners. Sash Cord and Weights, Coat Hooks, Push Plates and Door Stops, also Varnish, Stain, Putty and Sand-paper.

GENERAL AND EXTERIOR FINISH

Flooring, Baseboards, Building Paper, Roof Trimmings, Galvanized Ridge Roll, Eavetrough, Paint, Oil and Shellac.

Hardwood Floors are specified for the Living Room, Dining Room and Hall in our higher priced Homes.

In short, we supply everything to build the Home complete as shown in the Picture, with the single exception of Masonry and Plastering Materials.

NOTE : Plumbing, Heating and Lighting systems are not regularly specified with Halliday Homes, but we are always pleased to submit prices for these items when desired.

Materials of Guaranteed Quality

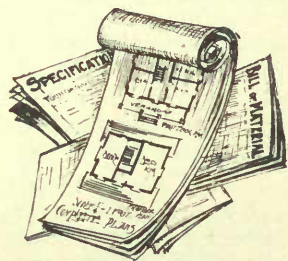

THE quality of materials furnished for Halliday Homes is supported by our guarantee of complete satisfaction to the Customer given on page two of this Catalogue.

All materials supplied are of the best and most suitable grade and quality as specified in our Bill of Material. It may be argued that a saving of cost such as the Halliday Company offers, can only be effected by supplying materials of inferior quality. This is not the case. We undertake to supply "BETTER HOMES AT LOWER COST" and we maintain that this can be accomplished by economics that enable us at lower prices to give better material than can be secured elsewhere at higher prices.

Why Halliday Material Costs You Less

Let us tell you why Halliday prices are less. In all lines of manufactured goods it is possible to obtain "Standard" articles at lower prices than "Specials". The Halliday Lumber and Mill-work Products, while offering variety in design, are made to standard patterns and sizes. They are run through the Mill in very large quantities. The very latest labor-saving machinery is employed and methods of manufacture follow the most up-to-date practice. It will be easily seen that these methods lead to real savings in cost, which enables us to supply a better grade of materials at lower prices. Our Customers therefore share with us the advantages gained by the adoption of up-to-date methods.

\$100 Set of Plans and Specifications free of cost.

Every purchaser of a Halliday Home is supplied with a complete set of Blue Prints giving the floor plan of each room including Basement, and Detail Drawings of the front, side and rear elevations of each Home.

We also furnish with each Plan, a complete "Bill of Material" giving particulars of all material furnished for the Home, and "Specifications" covering details of its construction.

A Set of Plans such as we describe, if ordered from an Architect would cost you upwards of \$100.00.

To intending Home builders, we offer the complete set of Plans for any of our standard Home Designs, together with "Specifications" and "Bill of Material," for the nominal fee of \$10.00, which is but a fraction of their real value. We do this on the understanding that if the material for the Home is ordered from us we will credit in full the price of the Plans---therefore, PLANS COST YOU NOTHING WHEN YOU PURCHASE A HALLIDAY HOME.

Standard Construction of HALLIDAY HOMES

The Sectional details on the diagram make an interesting illustration, showing very clearly the methods of construction employed on the Main Floor, Exterior Walls and Roofs of all Halliday Homes.

This design will be readily understood by the practical Builder who will see at a glance the sound principles upon which Halliday Homes are constructed.

Many of our readers however are not familiar with the technical details of Home Building and for their information we give the following brief summary, so that the diagram may be easily understood and the Halliday method of construction readily appreciated.

FLOORS. When double floors are used, the sub floor is laid diagonally across the joists---this is covered with a layer of Building Paper before the finished Floor is laid. The Hardwood Floor is laid diagonally

to the sub floor and at right angles with the joists, thus forming a perfectly level Floor which will not shrink. When Single Floors are used, the board's are laid at right angles to the joists.

It is important that Hardwood Floors should not be laid until the rest of the Building is completed, otherwise they are liable to damage which will rendered it impossible to obtain the beautiful finish so much desired.

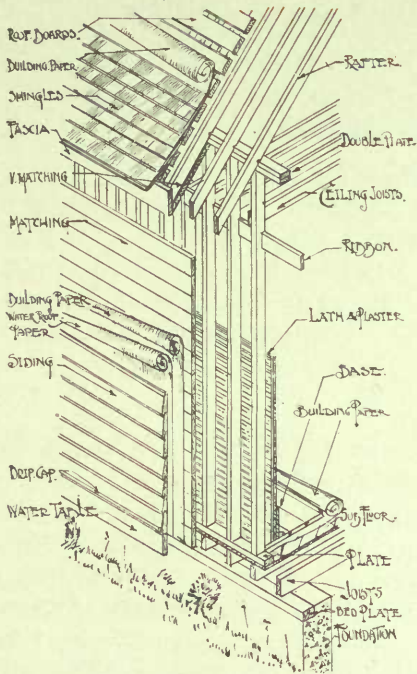

WALL CONSTRUCTION. The Studs are set to 16 inch centres. This avoids wastage of Lath, the standard length of which is four feet. The matching---tongued and grooved Lumber is then nailed to the studding. A layer of Building Paper is then placed on the matching---this is a protection against wind and draught and it causes warmth to the Home. As a further protection against the weather, a layer of Waterproof Paper is placed over the Building Paper---this prevents any possibility of dampness penetrating to the interior. The outside finish of Bevelled Siding or Shingle completes the sound construction of the exterior Walls.

For Homes in Northern Ontario we recommend our "Zero" Wall Construction which provides for Lumber Sheathing on both outside and inside of the exterior Walls, making what is undoubtedly the warmest wall that can be built and providing two air spaces as non-conductors of cold and dampness. The "Zero" Wall Construction is not regularly specified with our Homes, but we shall always be pleased to inform any Customer of its extra cost if desired.

ROOF. In roof construction when Cedar Shingles are used, the Sheathing Boards are laid from 1 inch to 2 inches apart so as to permit a circulation of air. When Asphalt Shingles are used the Roof Boards are nailed close together. In either case the Boards are covered with a thickness of Building Paper before the Shingles are laid. This makes a perfectly sound Roof---one that will give coolness in Summer and warmth in Winter.

THESE METHODS OF CONSTRUCTION WHICH ARE RECOGNIZED AS BEING OF THE HIGHEST STANDARD ARE ADOPTED IN ALL HALLIDAY HOMES.

NOTE. The Homes in this Catalogue shown in "Stucco finish" can be adapted for Frame Construction if preferred.

SPECIFICATIONS

Specifications are of the greatest importance to the Home Builder as they govern all the essential details of construction and form an agreement between the owner and the contractor, which insures adequate attention to every part of the work, in addition to being a safeguard against extra costs.

With every set of Plans and Bill of Material for a Halliday Home we furnish complete Detailed Specifications covering thoroughly the methods of construction, and which, when agreed upon by the owner and contractor, form a basis of dealings which is equitable to all concerned.

Space in this Catalogue does not permit of our giving full particulars of these Specifications, but we would especially draw the attention of the intending Home Builder to the following brief description of the materials supplied:---

Dimension Lumber---No. 1, Fir or Hemlock---this includes all Joists, Studs, Plates, and Rafters.

Wall Sheathing---No. 1, matched (tongued and grooved) Lumber, which insures solid construction and builds warmth into the home.

Roof Sheathing---All No. 1 Lumber, 1 inch thick, dressed on one side. Dressing on one side gives the Boards a uniform surface which improves the appearance of the roof and causes the shingles to lay flat, thus rendering the roof perfectly wind and damp proof.

Building Paper---One thickness of heavy Building Paper and one of damp-proof paper is used on exterior walls before finished siding is added.

Floors---When Hardwood Floors are used, we supply the same material for sub-flooring as for Roof Sheathing. The finished Flooring is No. 1, $\frac{3}{8}$ Birch or Maple, either of which makes a Floor which cannot be surpassed for durability and finish. In lower priced Homes, where single Floors are used, we supply $\frac{1}{2}$ inch White Pine or Fir.

Siding---In every case we use No 1, White Pine, which we have found from experience to give greater satisfaction than any other wood.

Shingles---When Cedar Shingles are used, we supply the best XXX Cedar which is known throughout the Dominion and needs no recommendation. In cases where Asphalt Shingles are specified, we supply the "Rock Face" quality in either green or red as illustrated and described in our millwork catalogue.

Lath---All No. 1, Pine or Hemlock.

Finish Lumber (Outside) For Frieze, Facia and Corner Boards, Porch and Veranda Rails, outside Steps, and all Mouldings, we use No. 1 quality Pine, which has been demonstrated to give the best results in withstanding wind and weather.

Finish Lumber (Inside) For Doors and Window trim, Base Board, Picture Mould, Chair Rail, Coat Strips, etc., we supply Clear No. 1 Georgia Pine, which, when covered with "Purity Wood Stain," gives a very beautiful finish.

Doors---All interior Doors are of No. 1 Clear Pine. The outer front and rear Doors are made to designs shown on the House Plan and glazed complete.

Stairs---No. 1, Georgia Pine. Attention is called to the manner in which our stairs are prepared. The stringers, treads, and risers are all cut to lengths ready for putting together, thereby simplifying the work of construction.

Window Sash---No. 1, Clear Pine, $1\frac{3}{8}$ inch thick, all check rail and plowed for sash cord.

Hardware (Rough) Sufficient common nails of all sizes required for rough work such as framing. Finishing nails for interior trim such as Base, Door and Window Casing, etc. All necessary Sash Weights, Pulleys and Cord, to make a properly balanced window.

Hardware (Finished) Includes all Mortise Locks, Hinges, Door Stops, Sash Fasteners and Lifts and Coat Hooks for Clothes Closets. The Customer has a choice of Antique Copper or Dull Brass.

Roof Trimmings---Sufficient quantities of Flashing, Valley Iron and Ridge Roll, according to Plan; also all Eavetrough and Conductor Pipes with necessary connections and fittings---all material of best quality 28 gauge Galvanized Iron.

Paints and Stains for the exterior, we supply "Purity Paint," sufficient for two coats; for interior finish, either Mahogany or Oak Stain and Varnish. Our Paint is guaranteed 100% pure. The customer has a choice of colors. If, however, the selection is left to us, we choose the color most appropriate to the design.

Choosing Your Home

Choosing the Home from this Catalogue, with its attractive illustration of Homes, together with Plans showing details of construction, is a pleasure to the intending builder. Instead of the tiresome circumstances usually connected with the selection of a Home---discussing technical details with an Architect or Contractor, or making tedious journeys to inspect various Homes---you can sit comfortably in your easy chair by the fireside and make the choice at your leisure.

Everything you desire to see concerning the Home is before you in miniature. There is the picture of the finished Home, showing how it will appear when built in accordance with the Halliday Plans. Then there are the Blue Prints, showing the position, size and number of rooms, and other details of interior construction. Again, there are illustrations of the rear and two side elevations, so that the exterior may be seen from every point of view; therefore, by simply looking at the Catalogue, you see in detail an exact representation of your future Home.

We know of nothing to excel this simple method of Home-choosing, and are confident that the designs illustrated, representing as they do the most attractive and popular types of modern Homes, will provide a suitable selection to please every taste. It is recommended that the plans be accepted without change, as every detail shown on the Blue Print has been carefully examined and approved by experts as being most suited to the general design, and from this it is not desirable to deviate to any great extent if the change can be avoided.

There are, however, minor alterations which can be made to suit the individual fancy of the purchaser, without materially affecting the general design and specification for the Home; and, should you have an idea of a slight change which you would like to see incorporated in the plan of your future Home, we invite you to consult our Home-Planning Department as to its practicability and probable cost.

Our Home Planning Service

Our Home-Planning Department has been formed for the purpose of giving practical advice to intending Home Builders regarding any ideas they may have for their comfort and convenience in the Home and we are desirous that you should take advantage of its service.

We would like every intending Home-Builder to feel that we are aiming to be of the utmost help in furthering his ambitions. It is to our interest as well as yours that the Home of your choice should give you perfect satisfaction and should represent in every sense your ideal of what a Home should be.

Do not, therefore, hesitate to ask our advice concerning your Plans. It is part of our business to assist you in choosing and planning your Home, and we want you to become familiar with our service. Write to us; we will gladly help you.

How to Order Your Home

A complete Price List of Halliday Homes, with order form attached, will be found at the end of this Catalogue. This form is arranged so as to give you the greatest assistance in making out your order. Fill in the necessary particulars and send the order to us, together with a cash deposit of one-fifth of the listed price of the Home, on the understanding that the remainder of the purchase price will be paid on arrival of the materials, subject to inspection before acceptance by you. On receipt of your order and deposit, we will forward immediately a complete set of Plans and Specifications, together with an itemized Bill of Materials, providing that these have not previously been sent to you.

Shipment of Materials

The materials will be shipped at the earliest possible date following the receipt of your order---usually about two weeks---unless special delivery instructions are received. It is customary to ship complete materials for the Home "all in one carload," as advertised. This we find is greatly preferred by many customers, as it enables them to check the whole of the material at one time, and it saves extra haulage, which is a great convenience to those living at a distance from the Railway Station. It further assures you of no delays when the building is in progress, which in itself is an advantage that cannot be overlooked. Should, however, you prefer not to receive complete materials at one time, we will endeavour to arrange shipment to suit your particular requirements.

The interests of our customer constitutes our first consideration, and it is our desire to assist in any possible manner which would tend to make the purchase of your Home a matter of permanent satisfaction, and to create a lasting feeling of mutual goodwill.

“ROSSCLAIR,” No. 25

SIX ROOMS AND BATH

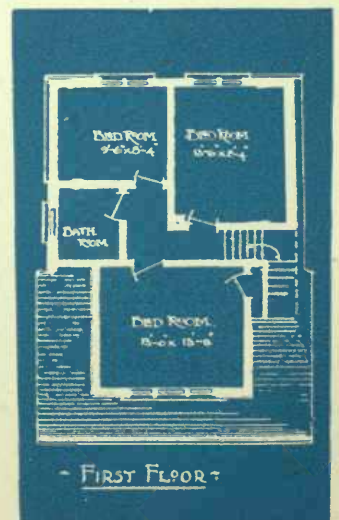

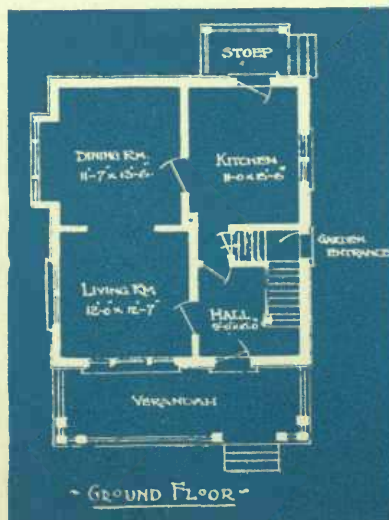

Size 24 x 27

“ROSSCLAIR” is an ideal Home for a small Family. The neat and artistic exterior design combined with a compact and well arranged interior, will appeal to many who are requiring an attractive little Home at a moderate price. There are three Bed-rooms and Bath Room on the Upper Floor, and a Living Room, Dining Room and Kitchen on the Ground Floor, also a Large Hall. The Rooms are of good size and are well-lighted, an attractive feature being the large Projection Window in the Dining Room.

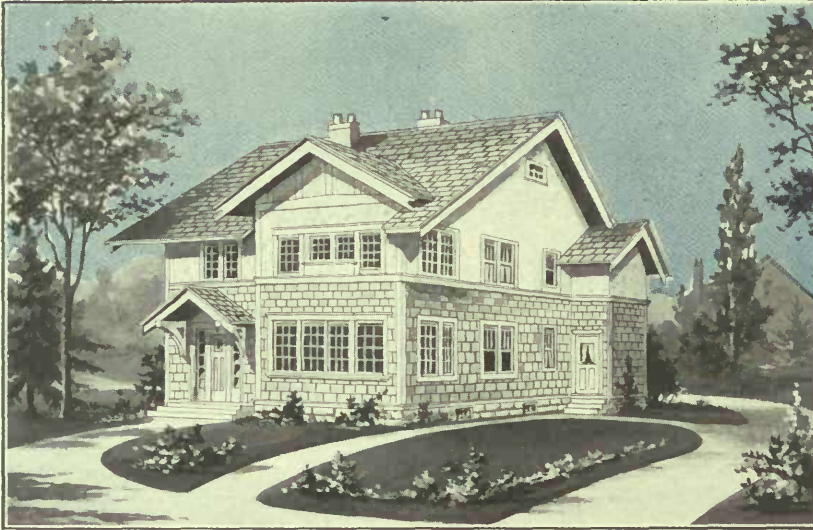

MR. S. A. MORSE writes:

“All of the materials which you have shipped me, I am advised by the building contractor, are of first class order, and have been found entirely satisfactory”.

Chatham, Ont.

Better Homes at Lower Cost

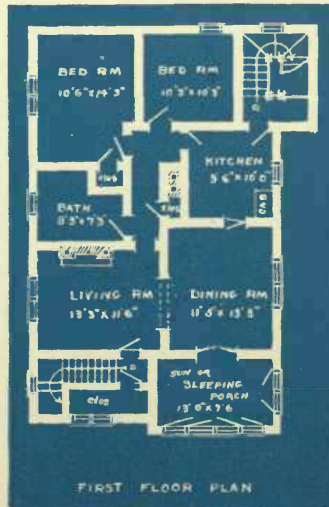

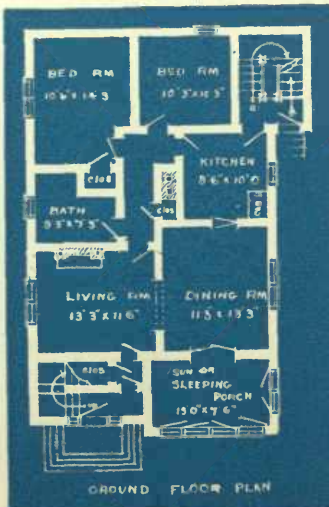

"CONNAUGHT," No. 61

FIVE ROOMS, BATH AND SLEEPING PORCH ON EACH FLAT
Size 30 x 43

THIS design was prepared in response to numerous enquiries received for a Home for two families. Whilst every detail for comfort has been considered, no point of architectural design has been sacrificed, and there is nothing to give the casual observer the impression that "CONNAUGHT" is other than a single, imposing residence. The interior plan is arranged to give similar accommodation and conveniences to both families. On each flat there are five Rooms, Bath and a Sun or Sleeping Porch. The exceeding usefulness of a Home of this nature, makes it an attractive proposition as an investment for rental purposes.

MR. R. APPLETON, who bought our "CONNAUGHT" Home writes: —
"The material which arrived is extremely satisfactory, and I have had several complimentary remarks regarding same."
R. APPLETON.

“LEASIDE,” No. 29

FOUR ROOMS AND BATH

Size 22 x 28

ALTHOUGH one of our lower priced Homes, “LEASIDE” possesses many desirable features which have made it very popular amongst Home Builders. The exterior, as shown in the Picture, is finished with “Pebble Dash” or “Rough Cast” up to the Window Sills, and from that point to the Gables, in smooth or “Sand Finish” Stucco. This, when finished off in Panels, together with the Stained Shingles of the Gables, presents a pleasing and harmonious effect. The interior is designed for a family desiring a small Home having all modern conveniences. There are two Bedrooms, each with Clothes Closets, a Living Room and Kitchen with a “built in” Cabinet, and a Bath Room.

The exterior of this Home, although shown in Stucco, can be adapted for Frame construction if desired.

A tribute from Manitoba.

St. Charles, Man.
“All the material for the House has come through in good shape. It arrived in Headingly this morning.”

For complete price, see List at end of this Catalogue

Better Homes at Lower Cost

"CHIPPEWA," No. 56

EIGHT ROOMS AND BATH

Size 36 x 30

If you desire to build on a wide lot, you will do well to consider "CHIPPEWA." The exterior design---with its long, sloping Roof with Gable centred above, and its imposing Front Entrance---is unusually attractive. The interior lay-out, which differs from all others illustrated in this Catalogue, is also very pleasing. There are five Rooms on the Ground Floor---a large Living Room, Dining-Room, Kitchen, Den and a Bedroom. On the upper Floor are three large Bedrooms and the Bath Room. The large Bay Windows in the Dining Room and down-stairs Bedroom, and the Central Stairway giving easy access to all Rooms, are commendable features of this desirable Home.

LEFT ELEVATION

"CLAREMONT," No. 59

SIX ROOMS AND BATH

Size 30 x 28

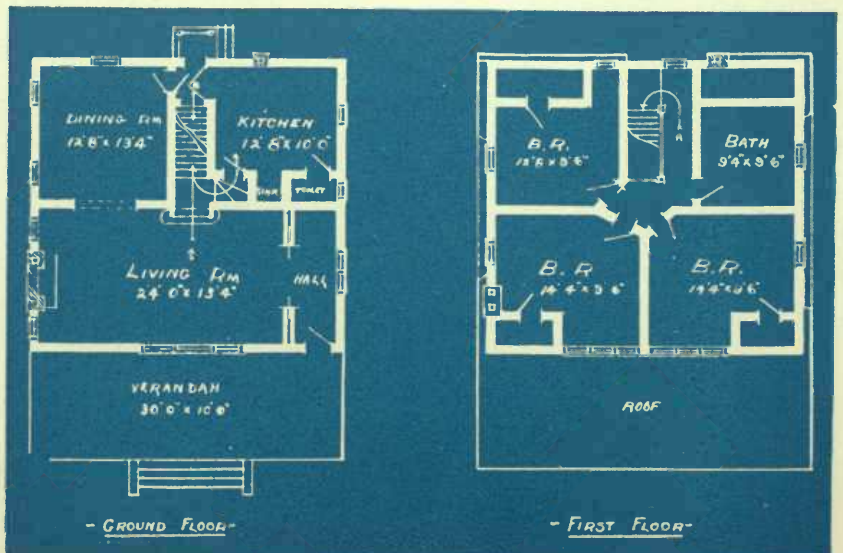

THIS Home possesses many distinctive features which attract immediate attention. The long curved Roof extending over the Veranda, the large Dormer with Six Windows, and the Bevelled Siding and Cedar Shingle finish to the Exterior Walls, all combine to give an artistic and pleasing effect. The interior plan is equally attractive. The Hall leads to a large and pleasantly situated Living Room, which has a Triple Window in Front and Casement Windows on each side of the Fireplace. The Main Stairway is centrally located, giving easy access to all Rooms. On the Upper Floor are three large Bedrooms, with Clothes Closets adjoining, and the Bath Room.

RIGHT ELEVATION

Better Homes at Lower Cost

"HEDGEROW," No. 49

FIVE ROOMS AND BATH

Size 24 x 32

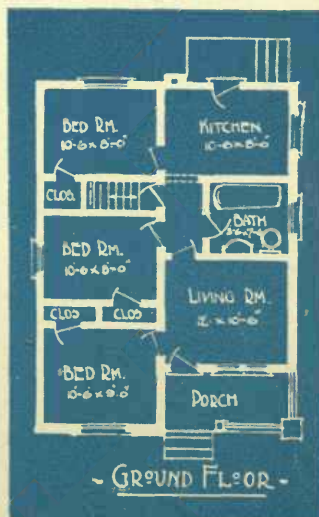

DESIGNED in response to enquiries for a small Cottage with three Bedrooms, "HEDGEROW" offers many attractions to the Home Builder. Although it is one of the lowest-priced Homes, everything which makes for the comfort and convenience of the family has been considered in the Plan. All the Rooms are compact and easy of access. There are Clothes Closets connected with each Bedroom. A noticeable feature of the exterior is the Recess Porch covered by Main Roof, which gives the effect of seclusion and coziness.

Another Testimony to Halliday Service

Sebringville, Ont.

I am very pleased to say that my orders have been handled with the utmost dispatch, and have proved entirely satisfactory.

GEO. RICHARDSON.

"ELKHURST," No. 42

SEVEN ROOMS AND BATH

Size 28 x 28

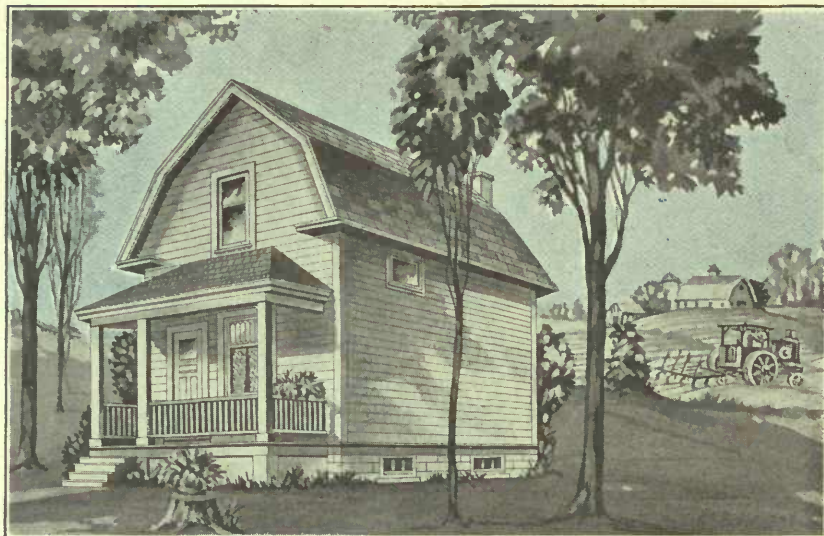

THIS type of Bungalow is very popular amongst Home-Builders. Although constructed along simple lines, it is decidedly artistic. The large Veranda and triple Dormer Windows are notable features of the exterior. The interior plan allows for a Bedroom on the Ground Floor in addition to the Living Room, Dining Room, Kitchen and Pantry. Upstairs, there are three good Bedooms and a Bath Room.

NOTE: Elkhurst is exceptionally well supplied with Clothes Closets, an acquisition which will be appreciated by the Housewife.

For complete price, see List at end of this Catalogue.

Better Homes at Lower Cost

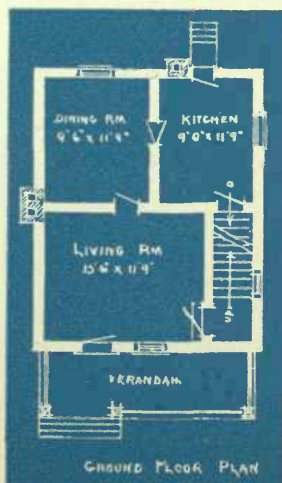

"ARDENDALE," No. 14

SIX ROOMS

Size 20 x 25

ONE of our popular lower priced Homes. "ARDENDALE" has many commendable features and is particularly adapted for building on a narrow lot. The Gambrel Roof forms an attractive part of the exterior design and, in addition, gives height to the Upper Rooms. The Ground Floor Plan admits of a large Living Room, with Dining Room and Kitchen adjoining. On the Upper Floor are three Bedrooms.

ALTERNATIVE PLAN—An alternative plan, by slightly changing the arrangement of the Upper Floor, allows for a Bathroom and an additional Clothes Closet.

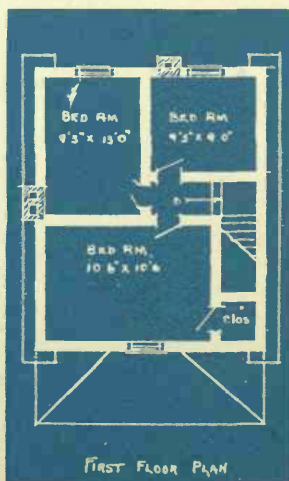

Material A1 In Every Respect

Toronto, Ont.,

Regarding the material which I purchased from you, I am very pleased to say that the whole order was A No. 1 in every respect.

I might also say that our business dealings have been very satisfactory and I will be glad indeed to recommend the HALLIDAY HOMES to any prospective builder.

WM. J. LEWIS.

"GLADSTONE," No. 40

SEVEN ROOMS AND BATH

Size 28 x 36

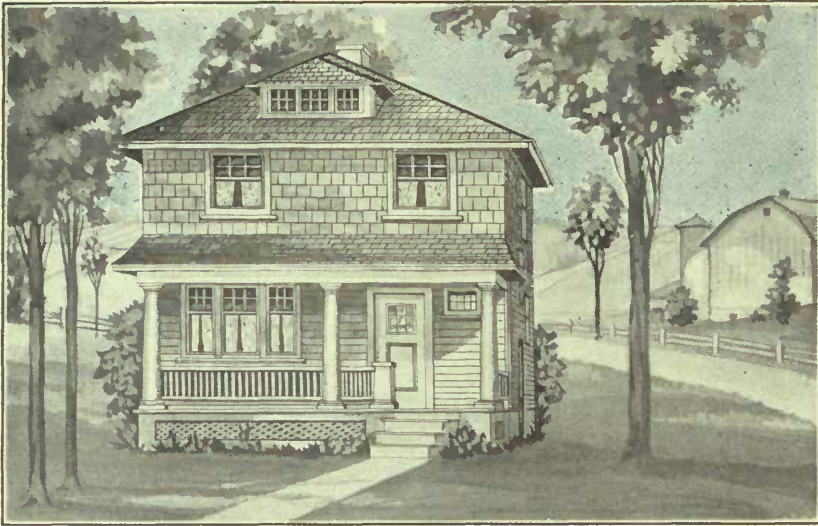

THE ever-popular two-storey Home of the Square Plan type is well represented in "GLADSTONE." The design is shown with a Brick and Stucco exterior, which gives a harmonious effect to the finish of the Home. The Ground Floor Plan allows for a Centre Hall, with Coat Closet. The large Living Room is to the right of the Hall, and on the left are the Dining Room, with Bay Window, and the Kitchen. On the upper Floor are four large Bed-rooms, each with a Clothes Closet, and the Bath Room with Linen Closet adjoining

The exterior of this Home, although shown in Brick and Stucco, can be adapted for Frame construction if preferred.

For complete price, see List at end of this Catalogue

Better Homes at Lower Cost

"CLIFTON," No. 24
SEVEN ROOMS AND BATH
Size 24 x 28

A neat, small Home, possessing many of the advantages of a larger one, would fittingly describe "CLIFTON." The shingled upper storey gives an artistic and pleasing effect to the exterior. The seven Rooms are conveniently arranged and are of good size for a small Home. There are Clothes Closets to each of the four Bedrooms.

Read the following testimonial from a customer who bought our "Clifton" Home:---

Windsor, July 24, 1920.
"Regarding quality of materials supplied by you for my house "Clifton," I have been well satisfied with quality all through, and I have saved considerably in price. You have also been quite ready to make adjustments of any differences. This inspires confidence. You are at liberty to use this letter as you may wish, or to refer anyone to me."

THOS. E. PATTERSON.

“EDGEGROVE,” No. 19

SEVEN ROOMS

Size 22 x 26

“EDGEGROVE” is another type of the popular Gambrel Roof Design. It is specially planned for construction upon a narrow lot, but its distinctive appearance renders it an attractive Home for any location. The Ground Floor Plan allows for a Living Room, Dining Room, Kitchen and Pantry. All possible space has been allotted to the Rooms, which are of good size for a small Home. Glass French Doors separate the Dining and Living Rooms. Another pleasing feature is the large Bay Window in the Dining Room. There are four Bedrooms on the Upper Floor with Clothes and Linen Closets adjoining.

Better Homes at Lower Cost

"HILLCREST," No. 18

SIX ROOMS AND BATH

Size 24 x 20

A message from one who has purchased "HILLCREST" is perhaps more appropriate than a detailed description of this Home.

Read the following letter from Mr. Longhouse:---

Woodbridge, January 3, 1921.

"In regard to the house 'HILLCREST' I bought of your Company last spring, it gives me great pleasure to thank you for the honorable manner in which you treated me. I can assure you it is a pleasure to deal with a Company who try to do what is right. The material was all first-class and will stand inspection. Will be pleased to show it to anyone wishing to call. I am quite convinced that I saved a lot of money by purchasing the whole house from one Company. Wishing your Company every success in the future."

D. C. LONGHOUSE.

Read also Mr. Thompson's comment after having seen the House mentioned by Mr. Longhouse:---

"I have seen one of your houses which was built by Mr. D. C. Longhouse, and I rather like it, and am thinking of building one."

Better Homes at Lower Cost

"INGLESIDE," No. 15

EIGHT ROOMS AND BATH

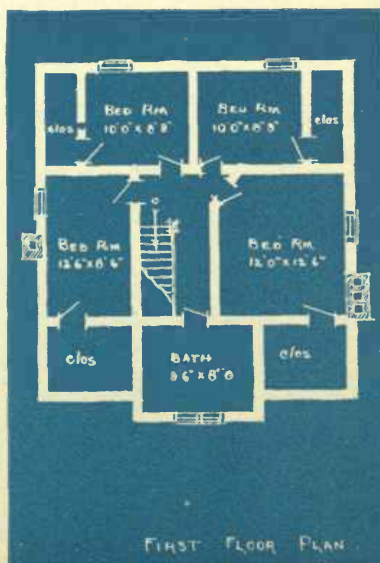

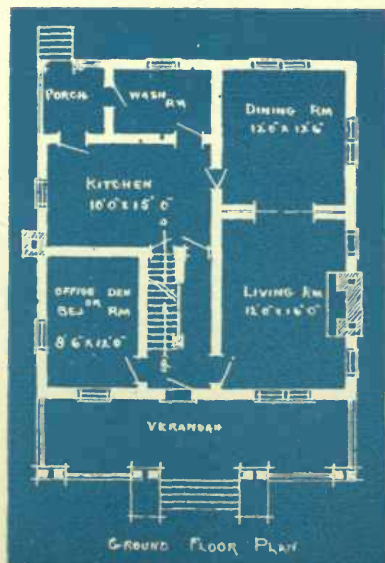

Size 28 x 30

If you are looking for a Farm Home, you will do well to give consideration to "INGLESIDE". The plan allows for four Bedrooms and a Bathroom on the Upper Floor, and a room which can be used for either Bedroom, Den, or Office on the Ground Floor. The Living and Dining Rooms are large and well lighted. A Wash Room, indispensable to the Farm Home, is approached from the Rear Porch.

MR. NORMAN E. WEST, of South End, Ontario, writes:---

I am completely satisfied with your shipment of Building Material, and prompt delivery of same. Everything was in A 1 condition. Inside Trim and Maple Veneer Flooring was of extra fine quality..

“WESTMOUNT,” No. 39

SIX ROOMS AND BATH

Size 28 x 24

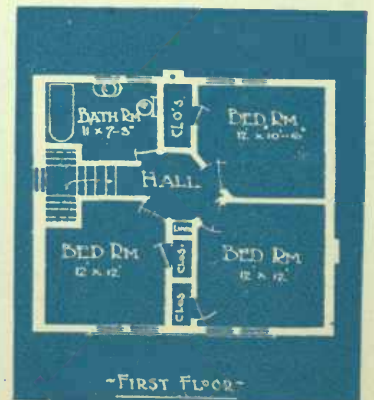

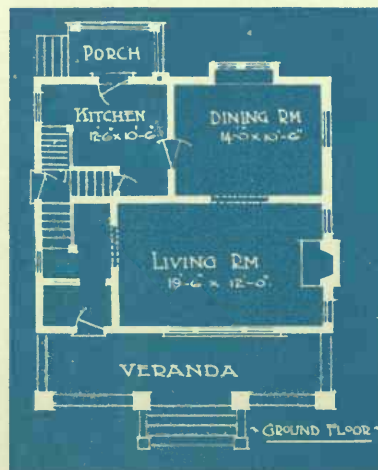

A glance at the Picture and a study of the Plan below will impress you as to the merits of this attractive and desirable Home. “WESTMOUNT” would always be a source of pride to its owner. Read the following testimonial concerning it---and Halliday service.---

Georgetown, Ont. Jan. 10, 1921

“I have found that everything has proved to be satisfactory in every way and am very much pleased with the quality of material and service you have given. I might also say if you have any prospective customers in this town I would be only too pleased to show them through my house and let them see for themselves the material.”

ANGUS DUNCAN

The exterior of this Home although shown in Stucco, can be adapted for Frame construction if desired.

Better Homes at Lower Cost

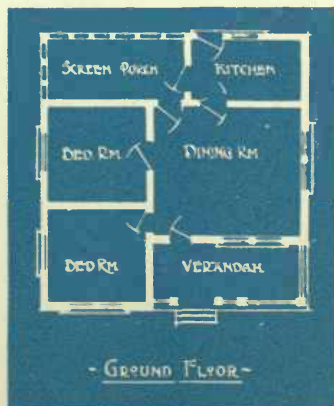

"LAKELAND" (Summer Cottage) No. 37

FOUR ROOMS AND SLEEPING PORCH

Size 25 x 26

PLEASANT reminiscences of summer are brought to the mind by a glance at this picture. "LAKELAND" is, in fact, an ideal summer home, sufficiently large to accommodate the average family. It has two Bedrooms and a screened Sleeping Porch, which can be used as an out-door Dining Room. A large Living Room leads to the front Veranda which is 6 feet, 4 inches wide. The moderate cost of this Home places it within easy reach of one who is desirous of leaving the heat of the city, for the cool refreshing breezes of the Lakeside.

A Customer's Advice

Sevagle, N. B.

"I was talking to a neighbor who is going to build and I advised him to buy from the right Company as it would not cost him so much as he expected—I told him about the Halliday Company.

DANIEL MULLIN

"MEADOWLEA," No. 22

SIX ROOMS AND BATH

Size 24 x 22

REAR ELEVATION

THIS attractive Semi-Bungalow has proved to be one of our most popular and best selling Homes. A noticeable feature of the exterior is the side entrance to the Veranda which insures seclusion and is a great convenience to one entering or alighting from a car. The interior plan has been devised with a view to allotting all available space to the rooms. It allows for a Hall, Living Room, Dining Room, and Kitchen on the Ground Floor, and three Bedrooms, with Clothes Closets, and Bath on the Upper Floor. A built-in Kitchen Cabinet is another interesting and useful feature of "MEADOWLEA."

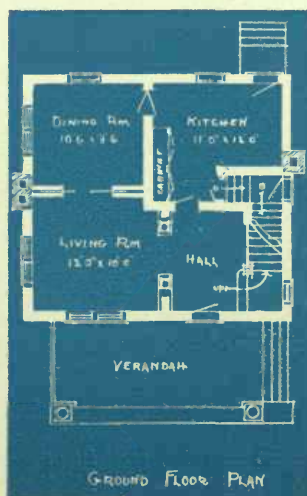

MR. D. PASSINGHAM, of Sarnia, Ontario, writes:---

Thank you for car of Lumber. It was received very promptly and the quality of material was very satisfactory.

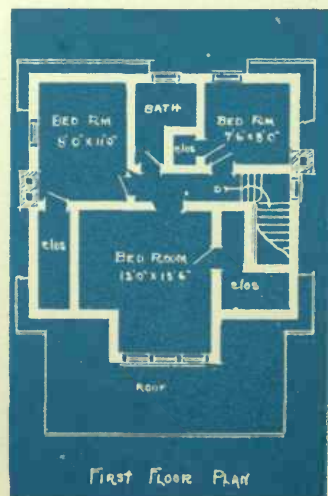

D. PASSINGHAM

Better Homes at Lower Cost

"EASTVIEW," No. 23

FOUR ROOMS

Size 22 x 26

THIS little cottage is one of our lowest priced Homes. Although small and unpretentious, it is neat and attractive, and the low price brings it within reach of the family with modest means desiring a small Home. The interior plan admits of two Bedrooms, each with Clothes Closets, a Living Room, Kitchen, and Pantry. All, available space has been allotted to the Rooms, which are of good size for a small Home. The Veranda gives a pleasing appearance to the front, and the Porch at the rear forms a shelter for the Kitchen during stormy weather.

Satisfactory Material

Chatham, Ontario, Dec. 1921

I found your material for the house which I bought from you very satisfactory and I am recommending you to others.

Better Homes at Lower Cost

"HIGHFIELD," No. 31

FOUR ROOMS AND BATH

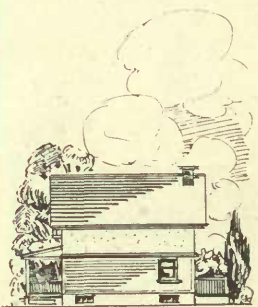

Size 18 x 26

If you are looking for a small, inexpensive, but attractive Home, especially adapted for building on a narrow lot, it will pay you to consider "HIGHFIELD." Everything for the convenience and comfort of the occupant has been studied. On the ground floor, there are the Living Room, Combined Kitchen and Dining Room and a Rear Porch. Upstairs are two Bedrooms, each with a Clothes Closet, and a Bath Room.

ALTERNATIVE PLAN—An alternative plan for "Highfield" admits of a separate Kitchen being added to the Home in place of the rear Porch. When this is done, a flat roof is built on the Kitchen, thus forming a Balcony from the rear Bedroom.

"DEVONSHIRE," No. 46

SIX ROOMS AND BATH

Size 28' 6" x 25' 6"

TO the home-lover with a desire for something distinctive, "DEVONSHIRE" will make a special appeal. The design is simple, yet picturesque. The Main Roof continuing over the Porch, with the shingled Gable above, the Triple Windows in the front Bed-room, Living and Dining Rooms, and the Front Entrance, with paneled Door and side lights creates an effect which cannot fail to please. The ground floor plan allows for a large Hall, Living Room, Dining Room, Kitchen and Rear Porch. On the upper floor are three Bed Rooms and a Bath Room. The two Clothes Closets connected with the large Bed Room are an acquisition which will be greatly appreciated.

Better Homes at Lower Cost

SUPPLEMENTARY SECTION

Containing Designs of

FARM HOMES - HOMES FOR FARM
WORKERS - SUMMER COTTAGES, etc.

In response to many enquiries for lower priced Homes we have prepared this supplementary section of the Catalogue consisting of sixteen pages, illustrating Farm Homes, Homes for Farm Workers, small and inexpensive Homes containing from two to seven Rooms, Kitchen additions, and Summer Cottages.

Although these designs have been specially prepared with a view to studying economy for the Home buyer, everything has been planned to make the Homes attractive, convenient and comfortable. "Halliday Standard Construction" has been adopted throughout, and the only respect in which these homes differ from those in the general section of the Catalogue is that in some instances No. 1 White Pine trim for paint finish has been specified instead of the No. 1 Clear Georgia Pine for Stain and Varnish used in all our larger Homes.

For some of the smaller Homes illustrated in this section wall board and strapping are supplied for the interior Walls and Ceilings. This takes the place of lath and plaster and in addition gives a finish which is very attractive and artistic.

We are confident that these Homes will be extremely popular amongst Home-builders and we have pleasure in commending them for your consideration and approval.

The Halliday Company Limited

The Halliday Company, Limited

RIGHT ELEVATION

REAR ELEVATION

"BELMONT," No. 81

THREE ROOMS, Size 21 x 22

BELMONT is another cosy, attractive and inexpensive Home, containing a large Living Room, Kitchen and Bedroom. It will strongly appeal to the small or retired family with modest means, desiring unpretentious comfort.

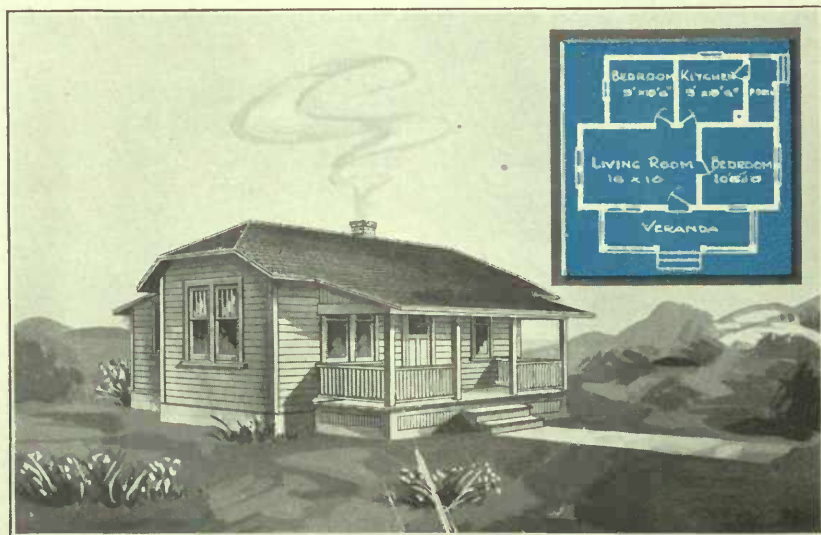

Wallboard and Strapping are supplied for the Walls and Ceilings of this Home.

LEFT ELEVATION

REAR ELEVATION

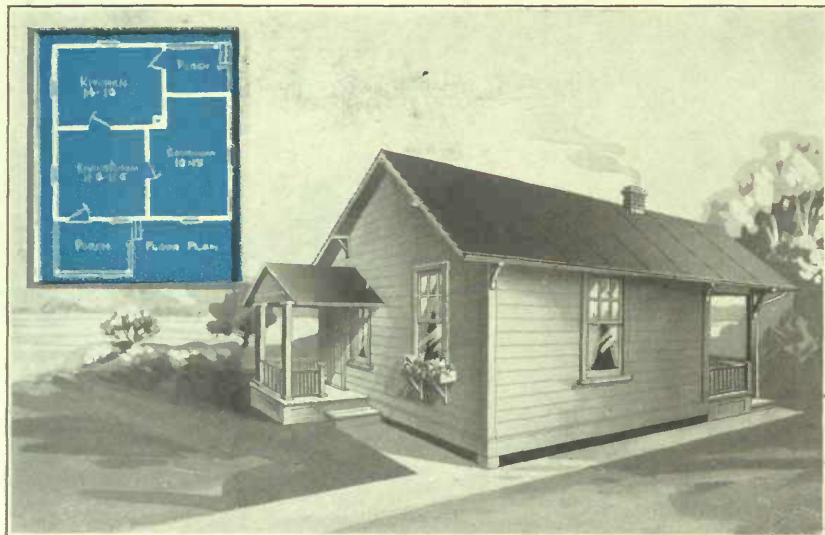

"MADAWASKA," No. 85

SUMMER COTTAGE, Size 28 x 22

MADAWASKA represents a very desirable type of Summer Cottage. It is neat, attractive and inexpensive. The plan allows for two Bedrooms, Kitchen and a large Living Room. In addition there is the large Veranda, which could be screened if desired.

Better Homes at Lower Cost

"DORSET," No. 76

THREE ROOM COTTAGE, Size 23 x 23

DORSET will appeal to the family requiring a small home with one bedroom. In addition it contains the Living Room and Kitchen, which together with a Front and Rear Porch, make a very attractive and comfortable little Home.

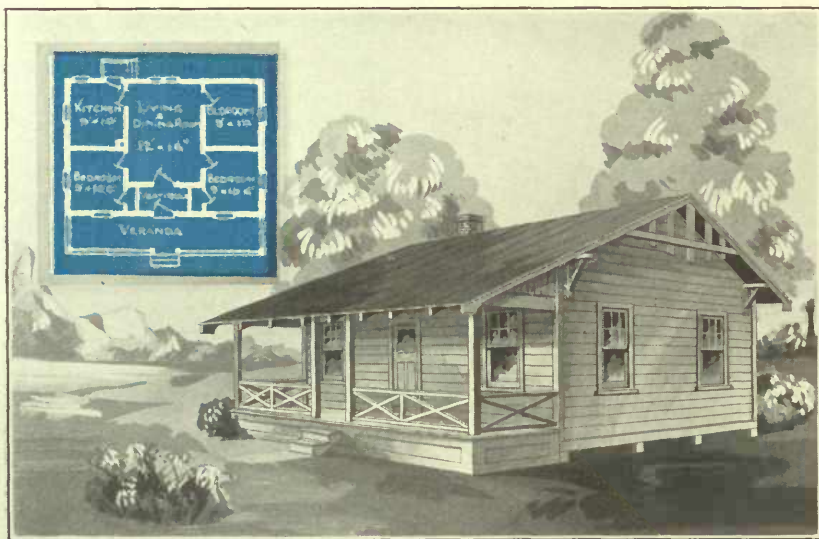

Wallboard is supplied for the Walls and Ceilings of the above Home.

LEFT ELEVATION

REAR ELEVATION

"MIAMI," No. 84

SUMMER COTTAGE, FIVE ROOMS, Size 32 x 22.

MIAMI is another attractive and well designed Summer Cottage. It contains a large Living Room, Kitchen and Three Bedrooms. A Vestibule leads to the fine and spacious Veranda. The bevel siding on this Cottage is intended to be finished with the rough side outwards, so that when coated with shingle stain it would give a very attractive and rustic effect.

LEFT ELEVATION

REAR ELEVATION

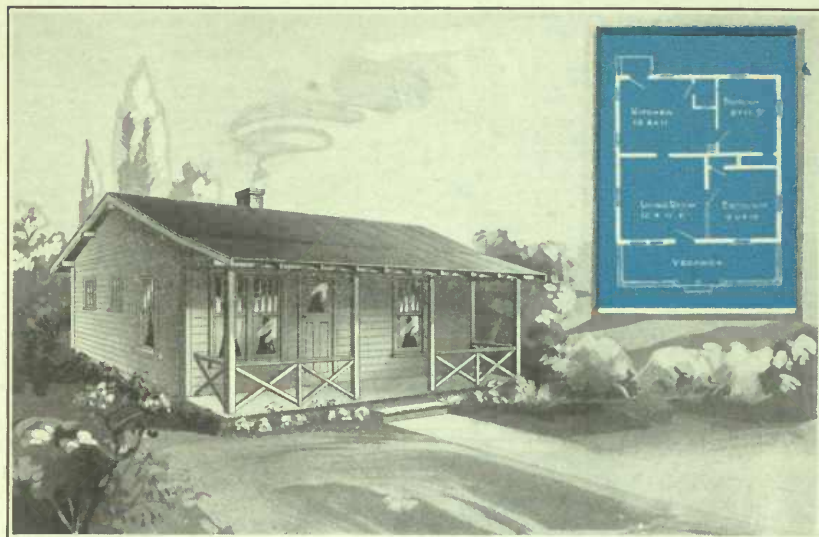

The Halliday Company, Limited

RIGHT ELEVATION

REAR ELEVATION

"CHEDOKE," No. 75

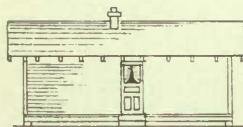

FOUR ROOMS, Size 23 x 24

CHEDOKE is another Four Room Home of the Bungalow type. Although low in price, it contains everything necessary for the comfort of a small family. The large Veranda is an attractive feature of the exterior.

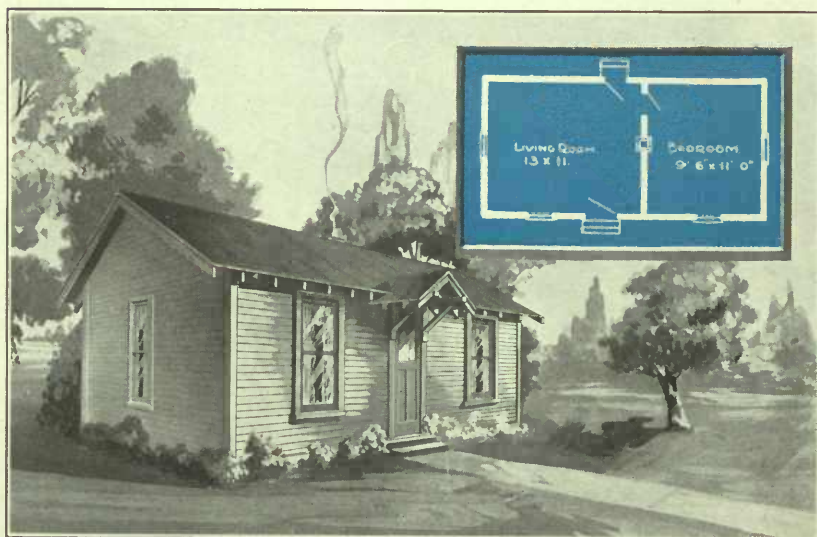

The Walls and Ceilings of this Home are intended to be finished with Lath and Plaster.

RIGHT ELEVATION

REAR ELEVATION

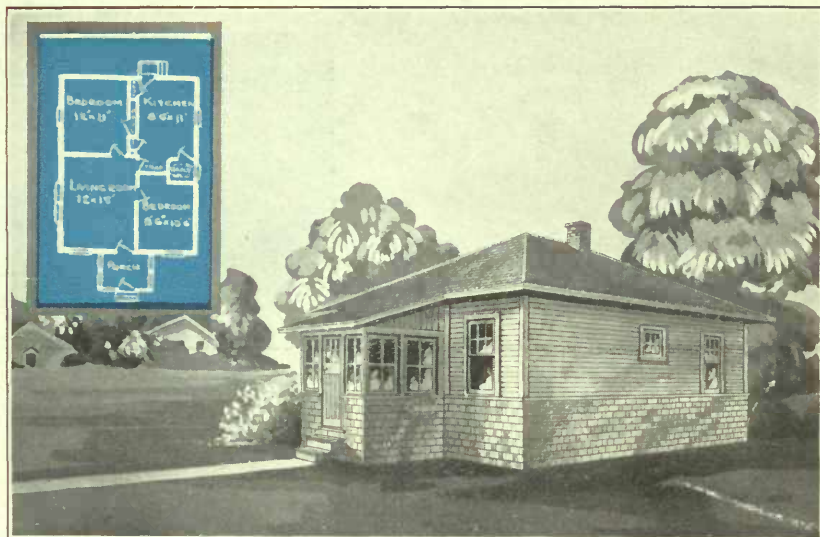

"ALPINE," No. 80

TWO ROOMS, Size 24 x 12

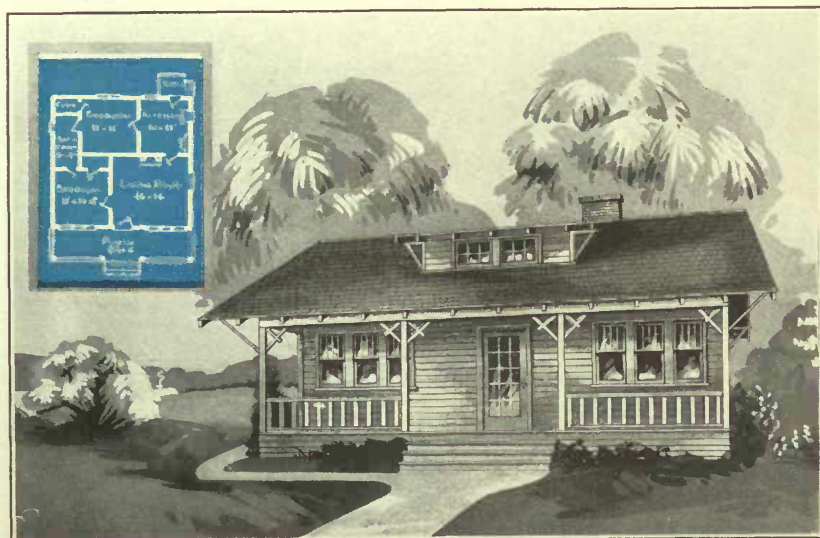

DESIGNED in response to requests for a small and inexpensive Cottage, Alpine would make a desirable little "Settlers' Home." For the interior walls and ceilings Wallboard is supplied for use instead of plaster. We therefore supply everything for the construction of this Home with the exception of the Brick Work on the chimney.

Better Homes at Lower Cost

"ANCONA," No. 88
FOUR ROOMS, Size 22' x 27' 6"

AN attractive feature of this little Home is the enclosed Porch, the purpose of which is to give protection from the cold winds of winter, and thus render the Home snug and comfortable. In summer the sash could be removed and the windows screened, and the Porch thereby rendered cool, comfortable and secluded.

"MINNEOLA," No. 77

SUMMER COTTAGE, FOUR ROOMS AND BATH, Size 28 x 26

MINNEOLA is a superior and very attractive type of Summer Cottage, containing Living Room, Kitchen, Two Bedrooms and Bath. The wood used in this Cottage is clear Georgia Pine.

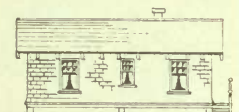

All Walls and Ceilings are finished with Wallboard, so that it could be used for a permanent Home if desired.

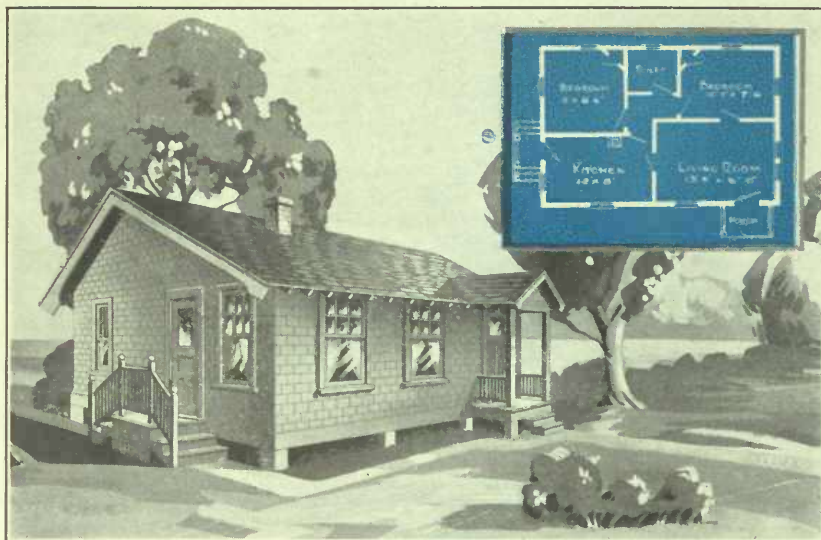

The Halliday Company, Limited

"AVONDALE," No. 48

SEVEN ROOMS AND BATH

Size 28 x 36

A description of this most attractive Seven Roomed Cottage seems unnecessary. Its unusual and fascinating design will appeal to every lover of a Home which is the embodiment of good taste in building construction. The interior is no less interesting than the exterior. In addition to the Living Room, Dining Room and Kitchen, there are two large Bed Rooms on the Ground Floor. A Colonial Arch leads from the Hall to the Living Room and another separates the Living and Dining Rooms. Upstairs are two large Bed Rooms and Bath Room.

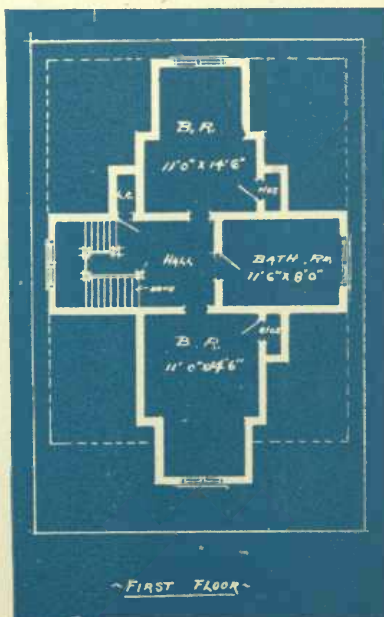

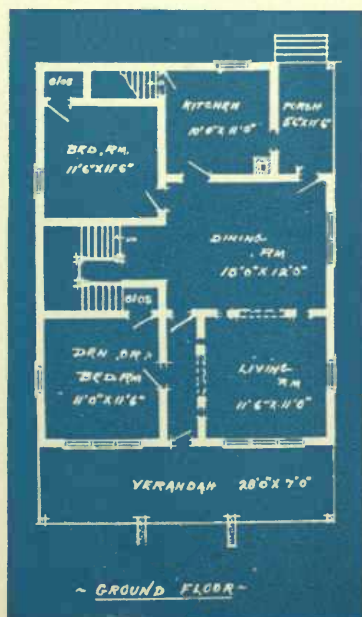

• LEFT ELEVATION •

REAR ELEVATION

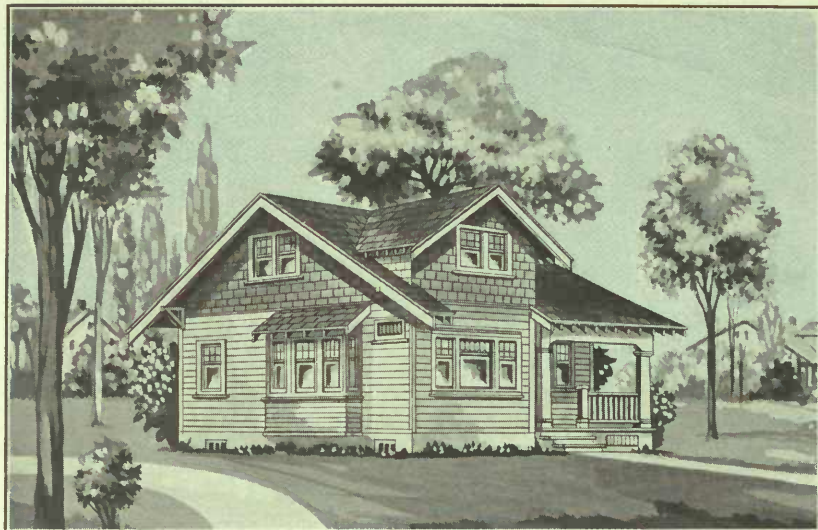

• RIGHT ELEVATION •

The Halliday Company, Limited

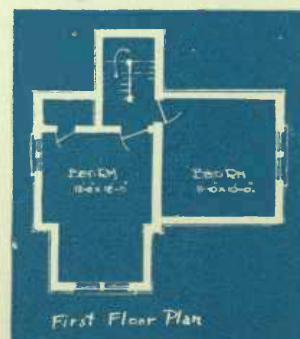

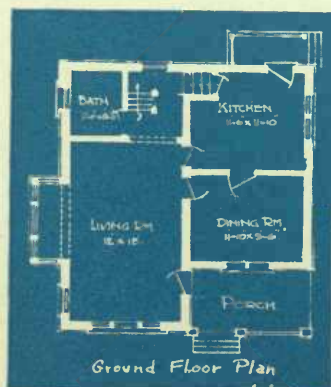

"ROSEDALE," No. 27

FIVE ROOMS AND BATH

Size 25 x 28

THERE is an unusual and distinctive charm about "ROSEDALE," which attracts immediate attention. The artistic Roof design, the Bevelled Siding finish to the Lower Storey, and the Stained Shingle finish to the Gable, combine to give a harmonious and pleasing effect to the exterior. The interior plan allows for three Rooms and Bath on the Ground Floor. The Living Room is particularly attractive, being large and well lighted, with a Triple Window in the front and a large Projection Window forming a very pretty Alcove---at the side. An arch leads from the Living Room to the open Stairway, which is also approached from the Kitchen, this being a very convenient feature of the interior arrangement. On the Upper Floor are two large Bedrooms.

Rosedale would make an ideal Home for a small family. It is inexpensive, and what is of great importance, there are no extra rooms to give unnecessary work to the housewife.

"HAMILTON," No. 69

SEVEN ROOMS AND BATH

Size 32 x 26

OF all the charming designs illustrated in this Catalogue, "HAMILTON" stands second to none in popularity. A detailed description of the exterior seems unnecessary, for its many charming features appeal to every observer. The interior design is no less pleasing than the exterior. On the Ground Floor there are the Living and Dining Rooms, a Den, Kitchen, a Breakfast "Nook" and a Pantry. There are "built-in" Bookcases in the Den. On the Upper Floor are three Bedrooms, with ample Closet accommodation, a Bath Room and Balcony

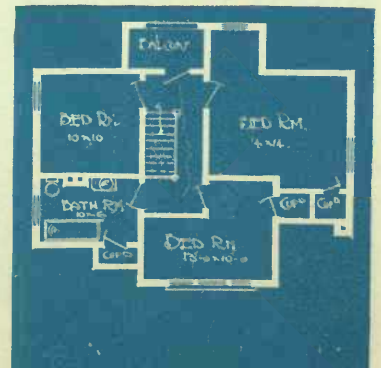

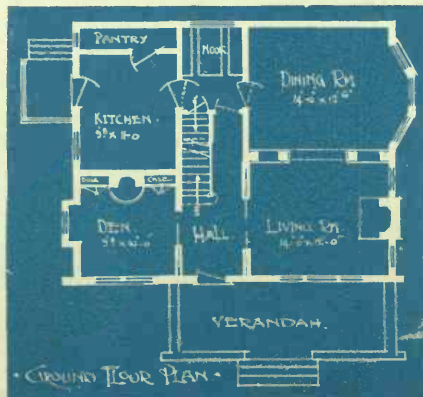

Mr. Dickie, who purchased two of our "HAMILTON" Homes, writes:—

R.R. No. 5, Truro, N.S., Jan. 3, 1921.

"We take this opportunity to thank you for giving us your best and prompt attention in building our two new "Halliday Homes" in 1920. The material we found highly satisfactory. It arrived in 'A-1' condition, and is even better than we expected. It will give us pleasure to recommend you to others, feeling confident that they will meet with equal satisfaction."

DICKIE BROS., Per H.E.D.

NOTE.—"HAMILTON" can be adapted for Frame construction if such is preferred to Stucco.

Better Homes at Lower Cost

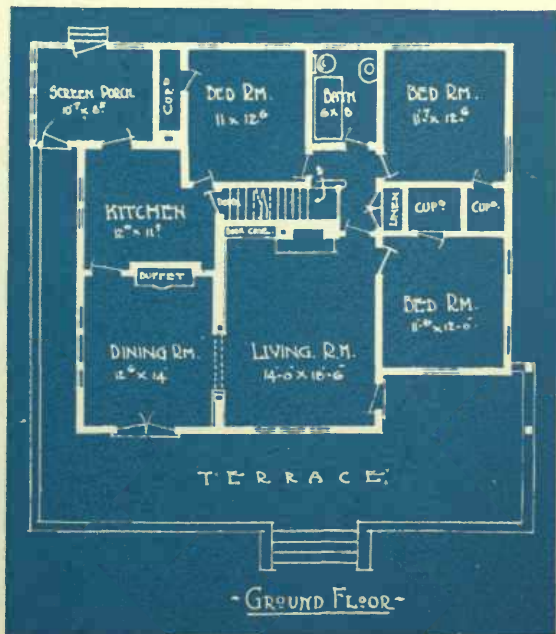

"ORMSBY," No. 47

SIX ROOMS, BATH AND SLEEPING PORCH

Size 40 x 36

THE winter scene depicted here does not indicate coldness except on the outside. "ORMSBY," with its Stucco Exterior and Halliday Standard Construction, would be warm and snug during winter---whilst the wide Terrace extending along the front and side would make a delightful summer residence. The rooms are spacious and well arranged, special features of interest and usefulness being the ample cupboard accommodation, the built-in Buffet in the Dining Room, the French Doors leading from the Dining Room to the Veranda, and the Screened Porch at the rear of the Terrace.

"BROOKSIDE," No. 13

SEVEN ROOMS AND BATH

Size 35 x 24

• REAR ELEVATION •

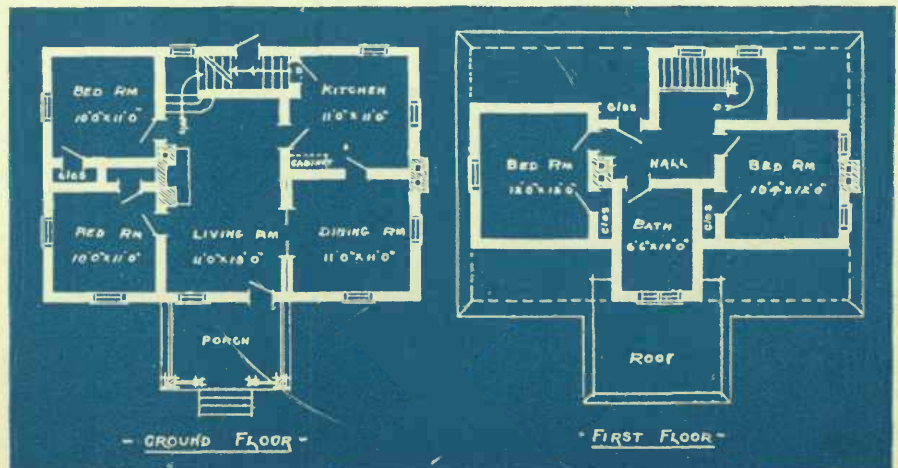

NEAT, compact, convenient and cosy would be a fitting comment to make concerning this little Cottage. The unpretentious yet artistic design causes one to think of "Home" and comfort. The interior is designed with a view to giving all available space for the Rooms, the Hall having been omitted in order to allow for an extra large Living Room. A built-in Cabinet is a very desirable feature of the Kitchen. There are two Bedrooms on the Ground Floor and two on the Upper Floor, also three Clothes Closets and Bath Room.

Mr. Alex. McIlreath, Winchester Springs, writes:--

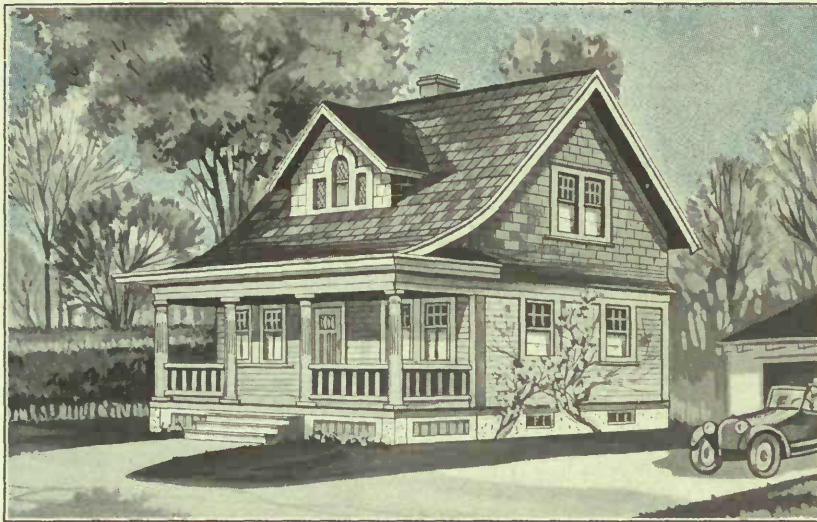

I received the shipment in good order, and am well pleased with it.

Better Homes at Lower Cost

"GLENDALE," No. 36

SEVEN ROOMS AND BATH

Size 20 x 35

ARTISTIC effect on simple constructional lines has been considered in planning this fascinating and extremely attractive Bungalow. The Curved Roof and large Veranda add to the existing charm of the exterior. The interior Plan allows for a large Centre Hall, with the Dining Room and Living Room on either side. The Kitchen adjoins the Dining Room and to the right is the Den or downstairs Bedroom. Upstairs are three Bedrooms with ample Clothes Closets, and the Bathroom.

Mr. John Rollins, Beachburg, Ont., writes

"I have been comparing prices of Homes, and find yours most satisfactory."

“BURLINGTON,” No. 50

SIX ROOMS AND BATH

Size 30 x 44

ARTISTIC effect, combined with every detail which makes for comfort and convenience were the objects in view when designing this charming Bungalow. The rooms are all of good size, and are well lighted, the Dining Room with its fine Bay Window being particularly attractive. There is a large Fireplace in the Living Room, with Bookcase built-in on either side, which, in addition to their usefulness, add materially to the furnishing of the Home. Other features of interest and service are the built-in Kitchen Cabinet and Clothes Closets connected with each of the three Bedrooms.

Better Homes at Lower Cost

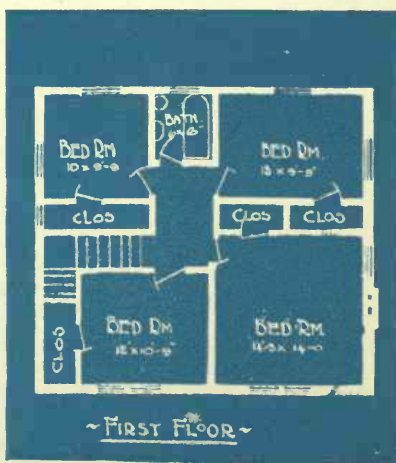

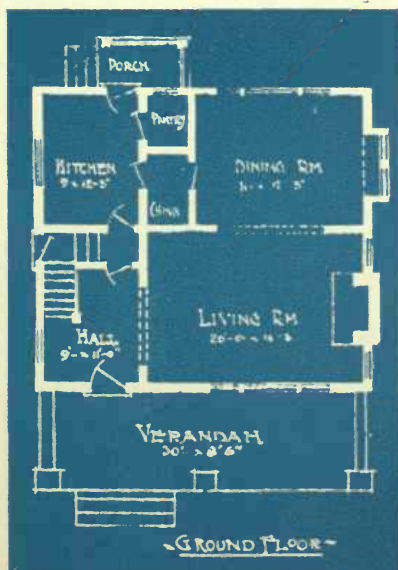

"AMHERST," No. 34

SEVEN ROOMS AND BATH

Size 31 x 28

"AMHERST" possesses all the advantages which are associated with a square plan type of Home. It is of artistic but simple construction; the rooms are well arranged, no space being wasted, and it is easy to heat during the winter months. The plan allows for four Bedrooms and Bath, a large Living Room, Dining Room and Kitchen. Special features of interest and usefulness are the large Veranda, the Clothes Closets attached to each Bedroom, and the China Closet and Pantry situated between the Dining Room and Kitchen.

Better Homes at Lower Cost

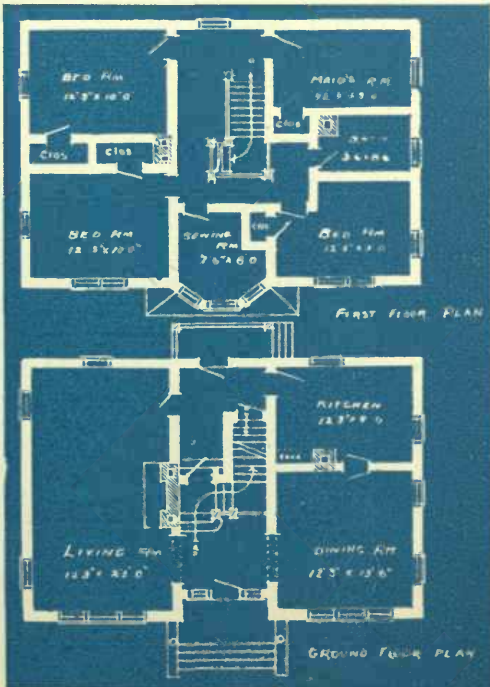

"BELLEAIRE," No. 65

EIGHT ROOMS AND BATH

Size 34 x 24

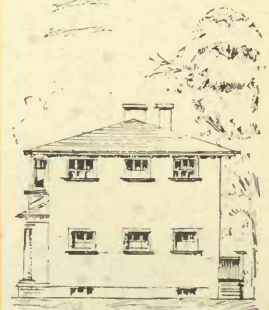

DESIGNED upon well-proportioned lines of construction, with Stucco finish to the exterior, well arranged Windows, and Front Door with Side Panels. "BELLEAIRE" presents an appearance which is particularly attractive and pleasing. The interior is planned to give equal satisfaction. On the Ground Floor there is a large well-lighted Living Room with Fireplace, also the Dining Room and Kitchen. The Upper Floor Plan allows for four Bedrooms, each fitted with a Clothes Closet, the Bath Room and a bright Sewing Room with Bay Window.

The exterior of this Home although shown in Stucco, can be adapted for Frame construction if desired.

A further tribute to Halliday "Service" and "Quality"

Windsor, Ont.

"I consider the safe arrival of this material as a good piece of work on the part of your Company. I wish to take this means of expressing my pleasure and to thank you for your good service and the good quality of material. I hope to be able to get you some orders by showing my home to others.

The Halliday Company, Limited

"TRENTON," No. 52

SEVEN ROOMS AND BATH

Size 30 x 38

GOOD taste is exemplified in every part of the plan of this very attractive Bungalow. The unusual exterior design, with its tapering Stone Piers supporting the Main Roof, which extends over the Veranda, is very effective. The interior plan comprises many features which will appeal to those of artistic temperament. A large Colonnade separates the Living Room and the Dining Room, each of which has an attractive beamed Ceiling. A built-in Bookcase on each side of the Colonnade adds materially to the furnishing of the Living Room. There are four Bedrooms in this Home—two on the lower and two on the upper floors.

Better Homes at Lower Cost

"DUNSMORE," No. 26

EIGHT ROOMS AND BATH

Size 28 x 31

A PLEASING design of a Square Plan Home at moderate cost is illustrated in "DUNSMORE." The exterior finish of Bevelled Siding and Stained Shingles forms an attractive combination. The interior layout is well devised. A Vestibule leads into the large and well lighted Living Room, to the right of which is a Room that can be used for either a Den, or a downstairs Bedroom. The Dining Room and Kitchen are conveniently situated close to the Centre Stairway. On the First Floor there are four Bedrooms and Bath Room, also Clothes and Linen Closets.

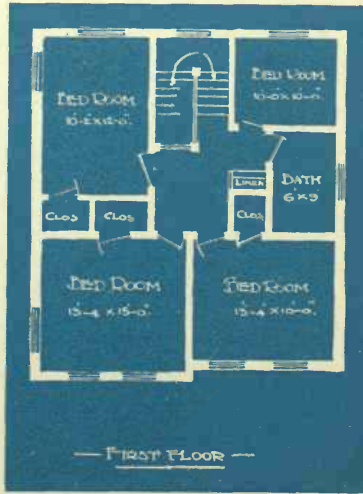

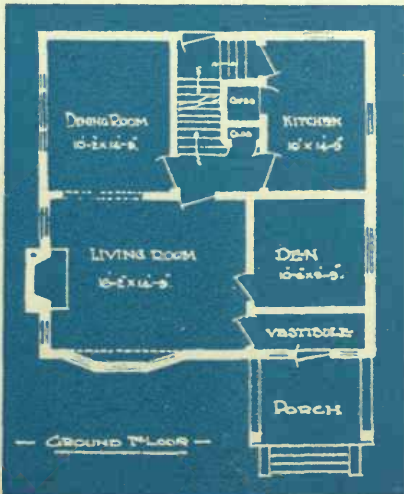

MR. M. J. McNEIL, of North Sydney, N. S. writes:—
With reference to the trim and finish lumber which you supplied for Mr. F. A. Bill, North Sydney, I find everything of the highest quality and quite satisfactory.

"NORWOOD," No. 33

SIX ROOMS AND BATH

Size 20 x 27

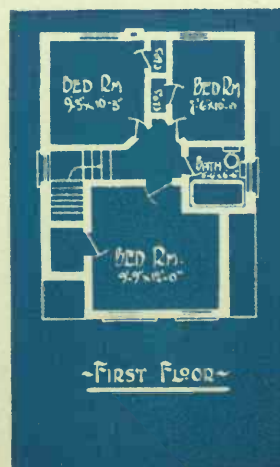

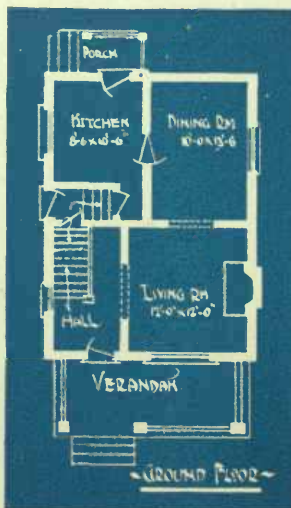

• REAR ELEVATION •

NORWOOD is one of our most attractive, medium priced Bungalows. It has been designed to meet the needs of the family desiring a small Home, without dispensing with the conveniences usually obtained in a larger and more expensive Home. The Ground Floor Plan allows for a Hall, Living Room and Kitchen. On the First Floor are three Bedrooms, with Clothes Closets adjoining--and the Bath Room. The compact and well devised interior, combined with a neat and artistic exterior, has made "NORWOOD" extremely popular amongst Home Builders.

MR. J. A. SMYTHE, Windsor, Ont., writes of "Norwood":
Regarding the material for Home No. 33. I wish to say that everything is first class in every respect, and your treatment of me could not have been better. I will gladly recommend you to any prospective builder.

Better Homes at Lower Cost

"SANFORD," No. 43

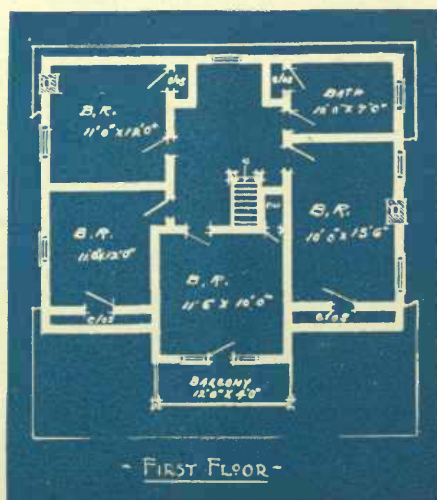

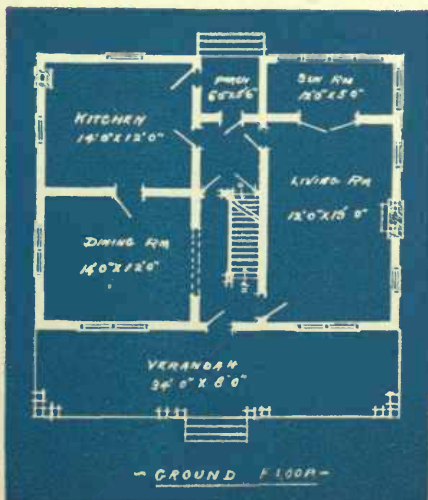

SEVEN ROOMS AND BATH

Size 34 x 26

THE spacious Veranda, and the Balcony leading from the front Bedroom, immediately call for favorable comment on this charming Semi-Bungalow. The impression created by a view of the exterior is enhanced by a study of the interior plan. To the right of the Hall is the large Living Room, which is connected with the Sun Room by glass French Doors. On the left side of the Hall is the well-lighted Dining Room and the large Kitchen. Upstairs there are four Bed Rooms, with Clothes Closets, and the Bath Room.

DR. A. J. MENARD, of Windsor, Ont., writes:

"It would be ungrateful, indeed, if I did not say a word of appreciation for the high quality of both Lumber and Hardware sent me for your house 'SANFORD'."

"WENTWORTH," No. 62

SIX ROOMS AND BATH

Size 30 x 42

THIS compact and attractive Bungalow is worthy of the study of every Home-Builder. The exterior design with its Stone Veranda and Piers, and its artistic Gable Roof construction, presents a very pleasing appearance. The interior design embodies many desirable features. There are three Bedrooms, with Clothes Closets, Living Room, Dining Room, Kitchen and Bath. All the Rooms are within easy access of the Centre Hall. The Beamed Ceilings in the Living and Dining Rooms create a very artistic effect.

of this Catalogue

Better Homes at Lower Cost

"SPRINGFIELD," No. 28

SIX ROOMS AND BATH

Size 22 x 28

"SPRINGFIELD" is another of our popular medium priced Homes. The exterior is shown in the Picture as being finished with Bevelled Siding up to the First Storey and from thence upwards in "Stucco." This gives an artistic and distinctive appearance to the Home. The interior has been arranged to give all the conveniences that would be obtained in a larger Home. On the Ground Floor there are the Living Room, with Triple windows, Dining Room and Kitchen, and on the Upper Floor are three Bedrooms and Bath, two Clothes Closets and a Linen Closet.

NOTE---We can supply Shingles for finishing the Upper Storey (as shown in the miniature elevations) if these are preferred to Stucco.

RIGHT ELEVATION

REAR ELEVATION

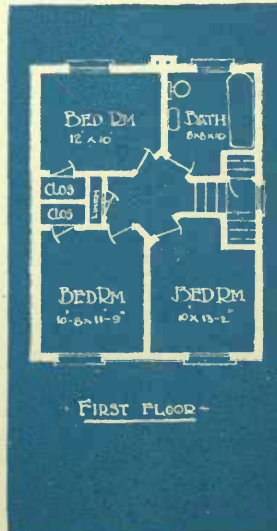

LEFT ELEVATION

Concerning this Home, Mr. J. Manning writes:

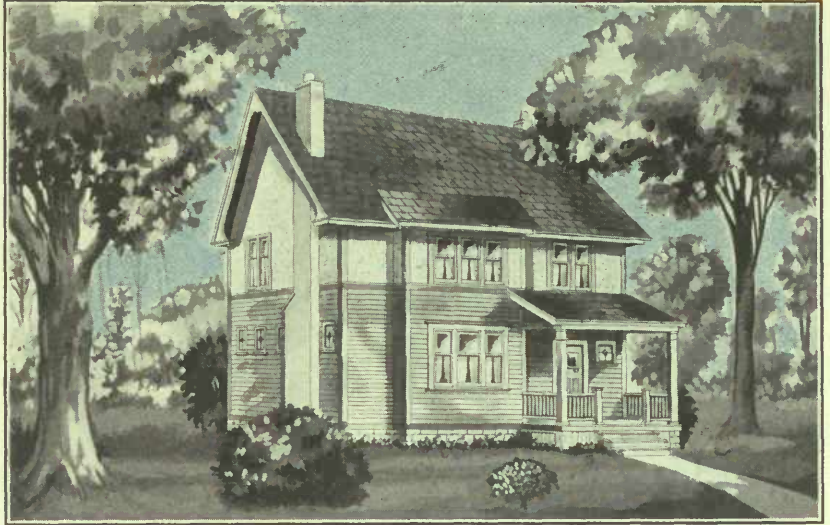

The material you supplied in your Home No. 28 for Mr. Bertram, at Snelgrove, was first-class in every respect.

I understand that several people in the vicinity are going to build and they all speak of ordering a "Halliday Home"--which I can heartily recommend.

For complete price see List at end of this Catalogue.

The Halliday Company, Limited

"BELLEVIEW," No. 58

EIGHT ROOMS AND BATH

Size 31 x 26

BELLEVIEW would make an ideal Farm Home. The design is neat and artistic---the Projection Windows for the Living Room and Front Bedroom, and the finish of the Walls in Bevelled Siding and Stucco, giving a distinctive appearance to the exterior. The interior plan allows for a Hall, Living Room, Dining Room, Kitchen, Wash Room and Pantry on the Ground Floor and four Bedrooms with Clothes Closets, and the Bath Room on the Upper Floor. There is also a Linen Closet close to the Bath Room and a Balcony leading from the rear Bedroom.

The exterior of this Home, although shown partly in Stucco can be adapted entirely for Frame construction if preferred.

Better Homes at Lower Cost

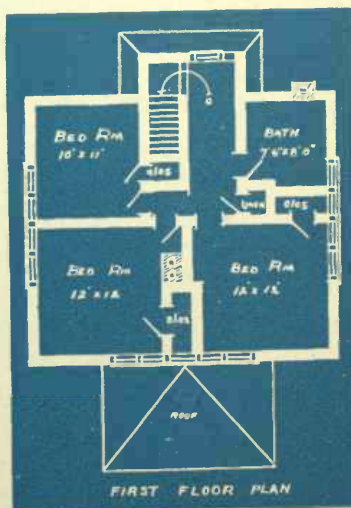

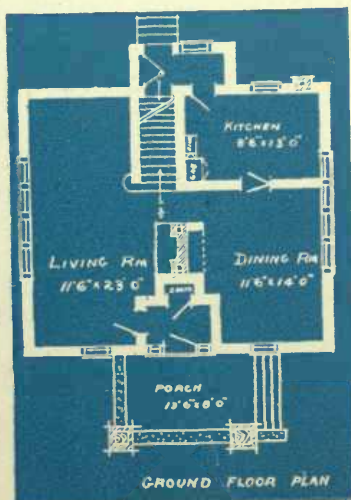

"GLANWORTH," No. 64

SIX ROOMS AND BATH

Size 28 x 34

A glance at this Home, with its long rows of windows, its fine Porch and its attractive Front Entrance, gives an immediate impression of comfort and cheeriness. "GLANWORTH" is indeed a Home of brightness and distinction, which many would be proud to own. The interior Plan equals that of the exterior in distinction and charm. From the Front Porch one enters a Vestibule, connected with which is a Cloak Closet. The large Living Room adjoins the Vestibule and to the right is the Dining Room, leading to the Kitchen. On the First Floor are three Bedrooms, each with a Clothes Closet,---the Bath Room and a convenient Closet for Linen.

The exterior of "GLANWORTH," although shown in Stucco can be adopted for Frame construction if preferred.
